PROFILE

Experienced and safety-focused Heavy Machine Operator with a strong background in civil construction and production mining. Skilled in operating a wide range of machinery, including 20T–200T excavators, dozers (D10T–D11T), haul trucks (777–785), water trucks, and GPS/laser-guided equipment. Proficient in bulk earthworks, final trim, land clearing, and highway upgrades, with a strong grasp of pre-start procedures, hazard analysis, and WHS/OHS compliance. Maintains an excellent safety record and ensures machinery is well-maintained and operationally sound. A reliable team leader and hands-on operator known for delivering projects on time and within budget, working effectively both independently and as part of a team. Energetic, self-motivated, and versatile, with a commitment to high standards, safe practices, and consistently high-quality outcomes.

SKILLS

- Working on a range of structures such as buildings, bridges, tunnels and roadways.
- Civil works and mining experience.
