PROFILE

Safety-focused Mining Operator with proven experience in open-cut production mining environments, operating a range of heavy equipment including rear dump trucks, excavators, dozers, and graders. Demonstrated ability to work effectively on rotating day/night rosters while maintaining high productivity, strong situational awareness, and strict adherence to site safety standards. Holds current Standard 11, SSE-signed competencies, and an open driver's licence. A reliable team member committed to Thiess' safety-first culture, continuous improvement, and sustainable mining practices.

TICKETS, LICENCES & CERTIFICATES

- Standard 11 – Current
- SSE – Signed Competency Transcript
- Open Driver's Licence
- Coal Board Medical – Current
- High-Risk Work Awareness (site-based)

CORE SKILLS & CAPABILITIES

- Production mining operations (open-cut)
- Rear Dump Truck, Excavator & Multi-Skilled plant operation
- Safe and efficient equipment operation
- Hazard identification, risk assessment & JHA/JSEA participation
- Compliance with site SOPs, SWPs & Thiess safety systems
- Working to production targets while maintaining safety standards
- Day/night rotating rosters (7/7, 12.5-hour shifts)
- Strong communication and teamwork
- Pre-start inspections and machine care
- Fatigue management and shift readiness

PLANT & EQUIPMENT EXPERIENCE

- Rear Dump Trucks (e.g. CAT 777/785 or equivalent)
- Hydraulic Excavators
- Dozers
- Graders
- Ancillary production equipment (as required)

MINING EXPERIENCE

Mining Operator

Open-Cut Coal Mine | QLD

2023 – Present

- Operate rear dump trucks and excavators in a production mining environment, supporting coal and overburden movements to meet daily and shift production targets
- Conduct thorough pre-start inspections, identify defects, and report maintenance issues in line with site procedures
- Maintain constant awareness of haul road conditions, light vehicle interactions, and changing site hazards
- Follow all site safety systems, SOPs, and Thiess-aligned safe work practices
- Work effectively on a rotating day/night roster, maintaining focus, fatigue awareness, and consistent performance
- Participate in toolbox talks, safety interactions, and hazard reporting to support a strong safety culture
- Communicate clearly with supervisors, dispatch, and other operators to ensure safe and efficient operations

Mining Operator / Multi-Skilled Operator

Mining Contractor | QLD

2021 – 2023

- Gained experience across multiple pieces of production equipment, including dump trucks, excavators, and support plant
- Assisted with pit operations, stockpile management, and general mine services
- Demonstrated flexibility by moving between tasks and equipment as operational requirements changed
- Maintained compliance with WHS legislation, site safety rules, and environmental controls
- Built a reputation as a reliable and safety-conscious operator trusted to work independently and within a team

AVAILABILITY & WORK ARRANGEMENTS

- Available for FIFO (Brisbane), BIBO (Mackay / Proserpine), or DIDO
- Experienced on 7/7 rotating day/night rosters
- Able to commence following standard onboarding and medical clearance
